Donaldson®
FILTRATION SOLUTIONS

www.rolman.com

Donaldson was founded in Minnesota, USA, 1915 and is the global industry leader in filtration systems. With over 100 years experience, industry-leading material and product design, and over 1,600 active international patents, they continue to be at the forefront of developing next generation products and services to solve complex filtration and contamination control challenges.

Donaldson provides customers with solutions that improve peoples' lives, enhance equipment performance and protect our environment. Their products are found in a wide variety of industries, including agriculture, on- and off-road equipment, power generation, pharmaceuticals, aerospace and defense, food and beverage, transportation, oil and gas and more.

Donaldson - Filtration Solutions for every need.

Air Filtration

Today's high performance engines and tougher emissions standards demand higher-performing air intake systems.

Hydraulic Filtration

Performance under any pressure. Protect expensive hydraulic components with Donaldson's complete line of spin-on, cartridge-style and in-tank hydraulic filters.

Fuel Filtration

Donaldson filters help prevent premature pump wear and injector clogging by delivering clean fuel to your engine. They're a better way to filter fuel.

Lube Filtration

Donaldson lube filters keep oil clean by capturing contaminants that can cause engine damage

Coolant Filtration

Donaldson coolant filters remove contaminants and maintain cooling system balance. It keep hot-running engine cool and reduce downtime.

Bulk Diesel Filtration

Remove contaminants before they enter your equipment's fuel system. Prevent problems and extend service intervals.
